

## What we do...

Proper Governance cannot be effective if the strategy is not carefully formulated, set and monitored by governing body members who should lead their counterparts through being authentic leaders.

We aim to ensure that excellent governance practices and both thoughtful and executed strategy are pinnacle outcomes for any successful corporate organisation.

Through trusted and authentic leadership practices, we enable the people of the organization to be valued by their leaders and simultaneously advance the organisation into the future.

This consulting service was founded on the need for the combination of both the educative and business components in meeting successful strategic outcomes of today's organisations, both for-profit and not-for-profit entities.

**Pro-Ed Enterprises**  
Govern, Strategise & Lead

Truly trusting other people is the trait of authentically believing in the honesty and reliability of others. When this trust is eroded by a single event, the period of time for repair and reinstatement of that trust could be infinite - organisational trust is not dissimilar.

Quality Governance Practices, careful and thorough Strategy Formulation is best enabled through Authentic Leadership. The essence of an inspirational leader is 'example'. For the future, we need to prepare global society and business for a vastly changing and transforming leadership led world, enhanced by enacting the values of an organisation, society and personal held beliefs. Leadership which carries an invisible vail is not authentic.

## Govern, Strategise & Lead

### Strategy Formulation

With the rising cost of business and staffing who has money to waste without rather having a proper and plausible insight into the future? This is why we at Pro-Ed Enterprises are proud to launch our new line of strategic planning programs. These programs can be custom designed and tailored to each companies' needs.

### Scenario Building

This is where it all ends up! A Board's most important function is to set risk appetite and set the strategy for the CEO. Working with the CEO, this type of planning looks at the plausible nature of possible scenarios which form the basis of the strategy for the business.

### Governance Practice

The governance series is where we at Pro-Ed Enterprises excel at providing corporate governance training tailored to their needs. Whether it's a short session through the introduction to governance with your Board, or an extensive and intensive Board evaluation through some of the carefully designed surveys, we are sure to have the tools and expertise for any corporate business both small, medium or large.

### Authentic Leadership

We are constantly pushing the limits of what people are capable. Through careful testing, evaluation and practical practices we can assist our clients with their specific needs which will help you push the limits in the ever evolving arena of innovative, creative and authentic leadership practice.

### Coaching & Mentoring

From the beginning manager, middle leaders, CEO or Board Chairman, our new coaching methods have the ability to create and produce true transformation and sustainability in business. Taking some of the unique methodologies and custom designed materials we have developed these modern insights prove to be both innovative, inspiring and motivational.

### Education & Training

Our next generation of youth and adults will require very different skills to those of two or even 1 generation ago. The 'social and technological' age is changing the landscape of how we do business and how we are trained to meet the demands of the twenty first century.
